DISCLAIMER

Efforts have been made to avoid errors and omissions in this book with due care and diligence. However, errors or omissions may creep in while editing or processing for computerization and printing. Any such mistake, error, discrepancy or omission may be brought to the notice of Author, Editor and Compiler or the Publisher which shall be rectified in the next edition.

Author, Editor and Compiler, Publisher, Printer or sellers are not responsible, directly or indirectly, for any consequences, damage or loss of action, consequential or incidental, to anyone, of any kind, in any manner, resulting therefrom the use of legal texts or case law as those are edited and compiled in good faith keeping utmost care and caution to make them error-free. However, in case of any confusion or difference, original legal texts may be consulted and used.

It is further pointed out that a few legal texts have been reproduced from such sources which are not accessible easily and even after making the best efforts it was not possible to have access to latest amended texts of such documents and editors and compilers or the publisher is not responsible about the present status of those documents and are not accepting any legal responsibility about such documents as these are included in this book for the information of users in good faith and the users may resort to relevant authorities for their latest status and original texts.

DEDICATION

**This book is dedicated to those
who are engaged in protecting
and preserving pollution free world**

Problem of pollution being more dangerous as compared to destruction by Hydrogen Bomb, it is proper and high time to implement the law in letter and spirit without discrimination as the life of human being is more precious.

PLD 2002 Lah. 555

PREFACE

A pollution free environment is not only the need of human beings but also important for animal sustain, botanical growth and non living things like hills to stay, yet a global concern, a neglected issue of developed and undeveloped countries alike. The hazard needs to be controlled through effective legislation and its implementation.

Unfortunately, the laws dealing with these issues are available in scattered and not in compiled form, with result that for resolving the issue several books have to be consulted. This is an attempt to meet the requirement of bringing all the available laws, provision of laws and other allied legislation in one book to facilitate those who are directly or indirectly engaged in preventing of pollution.

I hope this book will not only be of some value to those who are directly engaged in preserving environment and of immense use to lawyers, academicians and activists engaged in protecting environment.

I am thankful to Mr. Shakil Ahmed, B.A. LL.B. who very kindly spare his valuable time to assist me in compiling and updating the statutes. I am also thankful to publishers and their staff members without whose efforts and cooperation this work was not possible in the shortest possible time.

Though utmost care is taken to include up-to-date version, yet to err is human, hence there may be some inadvertent or accidental errors or omissions which are subject to correction. The worthy readers are requested to kindly point out any omission or correction for rectification in the next edition.

Mehboob Pervez Awan
